DESCRIPTORS	Employment Patterns; *Employment Trends; *Equal Opportunities (Jobs); Federal Government; *Government Employees; Labor Force; *Minority Groups; *Occupational Surveys; Tables (Data)

ABSTRACT

Conducted as part of a part of the overall equal employment opportunity program under Executive Order 11478, this report contains data based on a world-wide census of minority group employment in the Federal Government as of November 30, 1970. Intended primarily for use by those who manage the Federal civilian work force, data are included for Negroes, Spanish-surnamed persons, American Indians, Orientals, Aleuts, and Eskimos. Some highlights of the study are: (1) Net minority employment increased by 4,527 jobs between November 1969 and November 1970 despite a decrease in total Federal employment; (2) Minority groups accounted for nearly half of the net increase in employment at GS-9 and above; (3) At grades GS-5 through GS-8, minority employment increased by 5,497 jobs; and (4) Negroes, Spanish-surnamed Americans, American Indians, and Oriental Americans held 505,035 full-time Federal jobs in November 1970 as compared to 500,508 in November 1969. Several data tables, which comprise most of this report, are appended. (SB)

INTRODUCTION

Background

Minority employment surveys in the Federal Government are conducted as a part of the overall equal employment opportunity program under Executive Order 11478 issued by the President on August 8, 1969. This Order places renewed emphasis on the Government's commitment to provide equal opportunity in employment for all persons, regardless of race, color, religion, sex, or national origin.

Under the leadership of the Civil Service Commission, heads of departments and agencies are directed by Executive Order 11478 to:

- Provide adequate resources to positively administer the equal employment opportunity program.
- Recruit job candidates from all sources.
- Fully utilize the present skills of employees.
- Improve and maximally utilize employee potential to enhance upward mobility.
- Train and advise supervisors to assure understanding and implementation of the Executive Order.
- Participate in community efforts to improve conditions which affect employability.
- Implement a system for periodically evaluating the effectiveness with which the policy of the Order is being carried out.
- Encourage informal resolution of employee problems through equal employment opportunity counseling and provide for prompt, fair, and impartial processing of complaints of discrimination.

Coverage

Data in this report are based on a census of minority group employment in the Federal Government as of November 30, 1970. The census included Negroes, Spanish-surnamed persons, American Indians ,Orientals, and in Alaska, Aleuts and Eskimos. Geographically, the survey covered all states (except Hawaii), foreign countries, and United States territories (except the Commonwealth of Puerto Rico). Foreign nationals overseas were excluded, as were all Federal civilian employees not in a full-time status as of November 30, 1970.

Like its predecessors, the first of which appeared in 1961, this report is intended primarily for use by those who manage the Federal civilian work force. It is hoped, however, that it will prove useful to those without managerial responsibility but who are concerned with the nature of and

changes in the composition and structure of the Federal work force. The statistical data and analyses presented herein are directed at such questions as: What is the extent of minority group representation in Federal jobs in major urban areas (i.e., SMSA's)? How does the distribution of minority employees within the various pay systems compare with that of non-minority employees? What have been the growth rates for minority and non-minority employees in the larger Federal agencies during recent years? Is there evidence of upward mobility among minority group employees?

It is hoped that the data contained herein will provide answers to at least some of the questions raised above and to such others which naturally arise in connection with a census of this type. Toward that end, minority employment data are shown by agency, Civil Service Region, state (except Hawaii), and for 75 selected Standard Metropolitan Statistical Areas (SMSA's).

Determination of Minority Group Status

Minority group designations are based on the visual observations of the supervisors, and their knowledge of what each employee considers himself to be, or is regarded to be in the work environment or the community. While the limitations of this procedure are recognized, it is considered to be among the best of those adjudged to be both operationally and economically feasible.

Availability of Survey Results

The present report, as well as those for earlier years, are available for reference in the Civil Service Commission library, as well as in Government depository libraries, and other libraries throughout the Nation.

SIGNIFICANT PROGRAM CHANGES SINCE 1969

ADDED IMPETUS GIVEN TO EQUAL EMPLOYMENT OPPORTUNITY FOR SPANISH SURNAMED

In November 1970, the President gave added impetus to the overall equal employment opportunity effort when he announced a sixteen-point program to assist Spanish-surnamed American citizens interested in joining the Federal civilian service. The White House Press Release is reprinted below.

> The President today announced the initiation by the Civil Service Commission of a sixteen-point program to assist Spanish-speaking American citizens who are interested in joining Federal civilian service.
>
> This program is a follow-up to the statement the President made in his July 30 press conference in Los Angeles welcoming interested and qualified Spanish-speaking persons who have an interest in Federal employment.
>
> The sixteen steps which Civil Service Commission Chairman, Robert E. Hampton, will begin immediately to undertake are as follows:
>
> 1. Appoint a full-time official in the Civil Service Commission who will provide advice and assistance on matters relating to Spanish-surnamed population to assure full application of the EEO program in all Federal agencies to this group.
>
> 2. Begin an intensified drive to recruit Spanish-surnamed persons, particularly for identified public contact positions, in areas of heavy Spanish-speaking population, including the Southwestern states and in Chicago, Detroit, and New York, and certain other major metropolitan areas.
>
> 3. Use specialized recruitment teams, to include Spanish-speaking persons, for college recruitment, particularly at colleges with heavy Spanish-speaking enrollments.
>
> 4. Begin work immediately with OEO, DHEW, HUD, Labor to find ways to enhance opportunities at all levels for Spanish-surnamed Americans in programs dealing with the Spanish-speaking population as well as in other programs and in key occupations.
>
> 5. Step up recruitment for Cooperative Education Program at colleges with significant numbers of Spanish-speaking students to permit entry from FSEE registers without necessity of written examination.
>
> 6. Emphasize to Federal agencies availability of selective placement on bilingual basis so Spanish-speaking persons may be reached for appointment to positions dealing with the Spanish-surnamed population.

7. Hold an EEO conference of Federal managers and equal opportunity officials in the Southwest designed to assure equal opportunity for Spanish-speaking persons in employment and upward mobility in Federal agencies.

8. Develop plans for Federal agencies under CSC area office leadership to work with high schools in Spanish-speaking areas to make known job opportunities in the Federal Government and to counsel and to encourage students to stay in school.

9. Hire for summer employment in Federal agencies high school and college teachers from schools serving Spanish-speaking students to give them understanding of the Federal Government which they can relate to students.

10. Make special effort to inform Spanish-surnamed veterans of availability of non-competitive appointments for Vietnam Era Veterans including GS-5 level.

11. Require Federal agencies to review their EEO action plans and minority employment figures and make any necessary revisions to assure the full applicability of the plans to Spanish-surnamed population.

12. Review with agencies staffing of EEO program to make sure that there is understanding in the program of the special problems of the Spanish-speaking.

13. Provide additional training programs on EEO and personnel management for Federal managers in areas of Spanish-speaking population.

14. With the Department of Labor, explore the feasibility of establishing an Intergovernmental Training Facility for upward mobility and skills training for Federal, state, and local careers in the Southwest, probably in San Antonio.

15. Collect necessary data and broaden analysis of minority statistics to bring out special information relating to employment and upward mobility of Spanish-surnamed persons in the Federal Government.

16. Require EEO reports from agencies to reflect special information on Spanish-surnamed persons and include in the CSC agenda for EEO evaluation questions directed at particular problems relating to employment and upward mobility of Spanish-surnamed persons.

USE OF EMPLOYMENT GOALS AND TIMETABLES APPROVED BY CSC

On May 11, 1971, the Civil Service Commission issued a memorandum to heads of departments and agencies on the use of employment goals and timetables in agency equal employment opportunity programs. This memorandum is reprinted on the following pages.

Since the issuance of Executive Order 11478 by President Nixon, we have had discussions with agencies regarding the inclusion of numerical employment goals and timetables in equal employment opportunity action plans and instructions and we have approved their use in some agency action plans.

The purpose of this memorandum is to summarize and make clear our policy on this matter.

A "goal" is a realistic objective which an agency endeavors to achieve on a timely basis within the context of the merit system of employment. A "quota", on the other hand, would restrict employment or development opportunities to members of particular groups by establishing a required number or proportionate representation which agency managers are obligated to attain without regard to merit system requirements. "Quotas" are incompatible with merit principles.

The establishment of goals and timetables is a useful management concept and should be used where they will contribute to the resolution of equal employment opportunity problems. Affirmative action to attain goals must be carried out in the context of the merit system for public employment. The merit system is designed to assure a fair opportunity for all persons. The establishment of reasonable employment goals and timetables, as distinguished from mandatory quotas, in connection with minority employment, is compatible with this principle.

Some further amplification of this policy may be helpful to agencies:

1. *When goals and timetables are appropriate*

   Employment goals and timetables should be established in problem areas where progress is recognized as necessary and where such goals and timetables will contribute to progress, i.e., in those organizations and localities and in those occupations and grade levels where minority employment is not what should reasonably be expected in view of the potential supply of qualified members of minority groups in the work force and in the recruiting area and available opportunities within the organization. The skills composition of the minority group population in the recruiting area used by the organization and the occupational nature of the organization must be considered. For example, professional positions are usually filled from a regional or national labor market while trades and clerical positions are usually filled from the local labor market.

2. *Organizational considerations*

To be meaningful, goals and timetables should be developed according to organizational levels and components rather than establishing agency-wide goals which do not take into account local circumstances or occupational differences. In this way, detailed minority group statistics, such as those required by FPM Letter 290-3, will aid in identifying areas where additional affirmative action is required and can be translated into specific action plans for the level or component concerned.

3. *Relation to manpower planning*

To be valid, goals and timetables must be closely meshed with estimated turnover data and anticipated hiring as well as estimated changes in the total number of positions, occupation by occupation, for the period covered by the timetable.

4. *Reasonableness and flexibility*

Employment goals and target dates should be reasonable and flexible indicators for management action. If goals and timetables are reasonably and realistically established, they will probably be met through appropriate affirmative action. Where they are not met, the reasons for this should be assessed by agency management to see if the goals or target dates for their achievement should be adjusted or if additional affirmative actions are needed, including the further commitment of resources to agency recruitment and upward mobility efforts.

5. *Relation to action plans*

Goals and timetables, when established for an organization, should become one part of the organization's EEO action plan but are not sufficient in themselves. Since goals can be attained only through affirmative action, a broad range of specific action items should also be included as outlined in Section 2-5 of FPM Chapter 713.

6. *Agency Actions*

Goals and timetables must not be interpreted by managers and supervisors as quotas. Agency action plans and instructions involving goals and timetables must state that all actions to achieve goals must be in full compliance with merit system requirements. Agencies should provide guidance to installation managers on the establishment and proper use of goals and timetables and training should be provided to managers and supervisors regarding the purpose and use of goals and timetables.

The Commission reviews all agency-wide plans of action as they are revised and reissued. To the extent that we have suggestions for improvement to offer, we communicate with the agency. Where problems are noted which will lend themselves to resolution by establishing or updating numerical goals and timetables, we will include such recommendations in furtherance of the equal employment opportunity program.

In summary, we believe the use by agencies of employment goals and timetables in recognized problem areas in the manner described in this memorandum will be a useful means of encouraging affirmative action on equal employment opportunity and achieving the results to which we are all committed.

UPWARD MOBILITY OF LOWER LEVEL EMPLOYEES

In May 1970, the Civil Service Commission directed heads of departments and agencies to exert every effort possible to encourage upward mobility of men and women of all races, religions, and ethnic backgrounds now at the lower grade levels so that they might work at their fullest potential. The following memorandum from the Chairman of the Civil Service Commission transmitted detailed guidance to agencies:

In his memorandum to department and agency heads of August 8, 1969, the President said that the achievement of equal opportunity for all our citizens included the opportunity for all persons "to seek and achieve their highest potential and productivity in employment situations." He said we must search for new ways to provide encouragement, assistance, and training opportunities so that all employees may utilize their capabilities to the fullest extent in Federal agencies.

In my report to the President on the subject of equal employment opportunity prior to the issuance of Executive Order 11478, I pointed out that "many of our minority employees are concentrated at the lower grade levels, victims of inadequate education and past discrimination. Our women employees are also largely concentrated at the lower grade levels." Because of these circumstances, the Civil Service Commission recommended that we exert every effort possible in Federal agencies to encourage upward mobility of men and women of all races, religions, and ethnic backgrounds now at the lower grade levels so that they might work at their fullest potential. In his memorandum to you of August 8, the President endorsed this recommendation.

The Civil Service Commission asked for an outline of a program of action which could be used by agencies throughout the government in implementing the "new directions" on upward mobility for lower grade employees. The array of actions, developed in consultation with agency personnel directors, employee organizations and interested citizen groups, is described in the attached document.

We recognize that the ability of agencies to implement fully the program will vary considerably depending on many factors. Certainly the composition of its work force and the availability of funds and spaces must be considerations.

However, despite limitations on funds and spaces, we must do everything we can to implement as much of the program as possible in each agency. In determining what you can do, consider the possibility of applying parts of the overall program where the implementation of the total program is not feasible. In applying parts of the program, it is important to recognize that some parts cannot stand alone. For example, to train employees without being abe to give them opportunities to utilize their training would be unwise; to provide career counseling which is not geared to realistic opportunities would be harmful; and to publicize an upward mobility program without providing genuine opportunities for advancement would have a negative effect.

You should also consider applying the program or various parts of it in specific installations where total agency-wide implementation is not possible. Application of the program should, of course, be realistically aligned to job opportunities but even with a contracting work force there is still considerable opportunity, particularly in large agencies, for upward mobility of employees. What we must undertake is a new effort at assuring that within each agency we are assessing with renewed vigor the overall possibilities for upward mobility of Federal employees who have potential for advancement and that we are providing appropriate assistance to them.

We have directed our staff to facilitate effective implementation of this program throughout the Federal government. In addition to providing general advice and assistance, we are committing ourselves to specific actions designed to support your agency's efforts. These actions are also outlined in the attached document. We will work with agency officials on those items which require consultation.

The President expects me to report to him periodically regarding progress under the new Executive Order. Guidelines for an internal evaluation reporting system on the entire equal employment opportunity effort will be forthcoming. Your efforts on upward mobility will be a significant part of this report.

I am sure that you will do everything you can to effectively carry out this vital part of the President's Equal Employment Opportunity Program and that you will communicate your personal support for its implementation to all officials of your agency. We in the Civil Service Commission will do our part to assist you.

HIGHLIGHTS OF THE STUDY

- Net minority employment increased by 4,527 jobs between November 1969 and November 1970, despite a decrease in total Federal employment of 30,107 jobs.

- Between November 1969 and November 1970, minority group employment in the General Schedule and similar (GS) segment of the Federal work force increased by 7,177 jobs, or 3.9 percent. Non-minority employment in these "white-collar" jobs decreased by 12,292, or 1.1 percent.

  -- Most of the losses in total General Schedule employment occurred at GS-1 through GS-4. The rate of decrease for minorities at these grades (-1.1 percent) was considerably less than that for non-minorities (-7.1 percent).

- Minority groups accounted for nearly half (2,611 jobs or 48.3 percent) of the Governmentwide net increase in employment at GS-9 and above. Minority employment increased by 831 at GS 9-11; 1,266 at GS 12-13; 481 at GS 14-15; and 33 at GS 16-18.

  -- The percentage rate of increase for minorities in the middle and upper levels (grades GS-9 and above) far exceeds that for non-minorities. By grade grouping, relative increases (or decreases) were:

Grade Groupings	Minorities	Non-minorities
GS 9-11	up 3.3%	down 1.8%
GS 12-13	up 13.7%	up 2.5%
GS 14-15	up 21.8%	up 4.3%
GS 16-18	up 34.0%	up 4.5%

- At grades GS-5 through GS-8 minority employment increased by 5,497 jobs. About 20 percent of this increase was in GS grades 7 and 8. The number of non-minorities at these grade levels increased by 1,028 during the same period.

  -- The percentage rate of increase for minorities in grades GS 5-8 (9.0 percent) was considerably greater than that for non-minorities (0.3 percent), indicating significant progress in terms of upward mobility for minority employees in lower-level jobs.

- Negroes, Spanish-surnamed Americans, American Indians, and Oriental Americans held 505,035 full-time Federal jobs in November 1970, as compared to 500,508 in November 1969. Thus, minority group employment increased from 19.2% of the total Federal work force in November 1969 to 19.6% in November 1970.

STATUS AND PROGRESS OF MINORITY GROUPS

As compared with a year ago, there has been a net decrease of 30,100 in full-time Federal civilian employment. Most of this occurred among wage systems (that is, blue-collar) employees. Although there was a net reduction of 7,458 minority employees paid wage systems rates (mostly at the lower pay levels) minority employees now (November 1970) represent a slightly higher proportion of all wage systems employees than they did a year earlier. Moreover, minority employees paid wage systems rates of $8,000 or more increased from 14.3% of all such employees in 1969 to 17.3% in 1970.

With regard to minority workers in the white-collar group, particularly those paid under the General Schedule and similar pay systems, increases since 1967 have been progressively larger. The proportion of employees paid General Schedule and similar rates rose from 35.0 percent in 1967 to 37.4 percent in 1970. Minority employees also make up a larger proportion of total employment in each of the General Schedule and similar grade groupings.

Negro Federal Employees

As of November 30, 1970, Negro employees held 391,173, or 15.2 percent of all full-time Federal jobs. They represent 11.1 percent of all Federal employees paid under the General Schedule and similar pay plans; 20.5 percent of those paid under wage systems; 19.4 percent of those paid Postal Field Service rates; and 6.3 percent of those under "all other" pay plans. Except in the Postal Field Service, these percentages are higher than in November 1969; however, in actual numbers, Negro employees in the Postal Field Service increased by 2,431 from November 1969.

Data for Negro employees show an average annual growth rate of 0.03 percent since November 1967. The average annual rates of change by pay plans during the past three years for Negro employees are: General Schedule and similar (2.2 percent); wage systems (minus 4.2 percent); Postal Field Service (1.7 percent); and "all other" pay plans (minus 0.4 percent). Progress of Negro employees, as measured by their percent of total employment under major pay plans for the years 1967, 1969, and 1970, is shown in chart 3, page 14.

The 42,466 Negro employees paid General Schedule and similar rates include 4,548 more than in 1969--an increase of 10.7 percent. Also, at each grade grouping, Negro employees account for a larger percentage than in 1969. Specifically, Negro employees comprise 22.3 percent of employment in GS grades 1-4; 14.0 percent of GS 5-8; 5.3 percent of GS 9-11; 2.8 percent of GS 12-13; 1.9 percent of GS 14-15; and 1.6 percent of GS 16-18. There are 1,536 fewer Negro employees in GS grades 1-4; 4,420 more in grades 5-8; 531 more in grades 9-11; 804 more in grades 12-13; 300 more in grades 14-15; and 29 more in grades 16-18.

Spanish-Surnamed Federal Employees

Spanish-surnamed employees numbered 74,449 on November 30, 1970, a slight (898) increase over the number in November 1969. They now make up 1.9 percent of employment under the General Schedule and similar pay plans; 5.8 percent of wage systems employment; 2.7 percent of Postal Field Service employment; and 1.2 percent of employment under "all other" pay plans. Overall they represent 2.9 percent of all Federal employment.

Spanish-surnamed employment has increased by 5,504 since November 1967. The average annual rate of increase for this minority group during this period was 2.7 percent. The larger annual rates of growth occurred in the Postal Field Service (9.6 percent), and under the General Schedule and similar pay plans (5.1 percent). Decreases occurred under wage systems and "all other" pay plans, resulting in yearly rates of decrease of 2.1 and 2.8, respectively. Progress of Spanish-surnamed employees, as measured by their percent of total employment under major pay plans for 1967, 1969, and 1970, is shown in chart 5, page 16.

American Indian Federal Employees

In November 1970, the number of American Indians employed full-time by the Federal Government totaled 17,992, or 0.7 percent of total employment. At 3.1 percent, the average annual growth rate since 1967 for American Indians is the largest among minority groups. Their yearly rate of growth was 5.1 percent under the General Schedule and similar pay plans, 6.7 percent in the Postal Field Service, (wage systems decreased an average 1.3 percent), and under "all other" pay plans, they averaged 24.7 percent increase per year. Progress of American Indian employees, as measured by their percent of total employment under major pay plans is shown in chart 7, for 1967, 1969, and 1970.

The net loss under wage systems, and the net gain under "all other" pay plans for 1967-1970 have been reversed during 1969-1970. During this period, American Indians have increased by 2.1 percent under wage systems, and have decreased by 5.4 percent under "all other" pay plans.

Oriental American Federal Employees

In November 1970, Oriental American employees in the Federal Government totaled 21,421, or 0.8 percent of total employment. This percentage is unchanged from November 1967. Oriental employees are 0.8 percent of employment under the General Schedule and similar pay plans; 1.2 percent of wage systems employment; 0.6 percent in the Postal Field Service; and 0.8 percent under "all other" pay plans.

Since 1967, Oriental Americans employed in the Federal Government have increased an average 1.6 percent annually. Their average annual growth rates under the General Schedule and similar pay plans, and in the Postal Field Service are 4.8 and 4.2 percent, respectively. They have decreased an average of 3.7 percent yearly under wage systems, and 2.0 percent yearly under "all other" pay plans. However, since November 1969, Oriental American

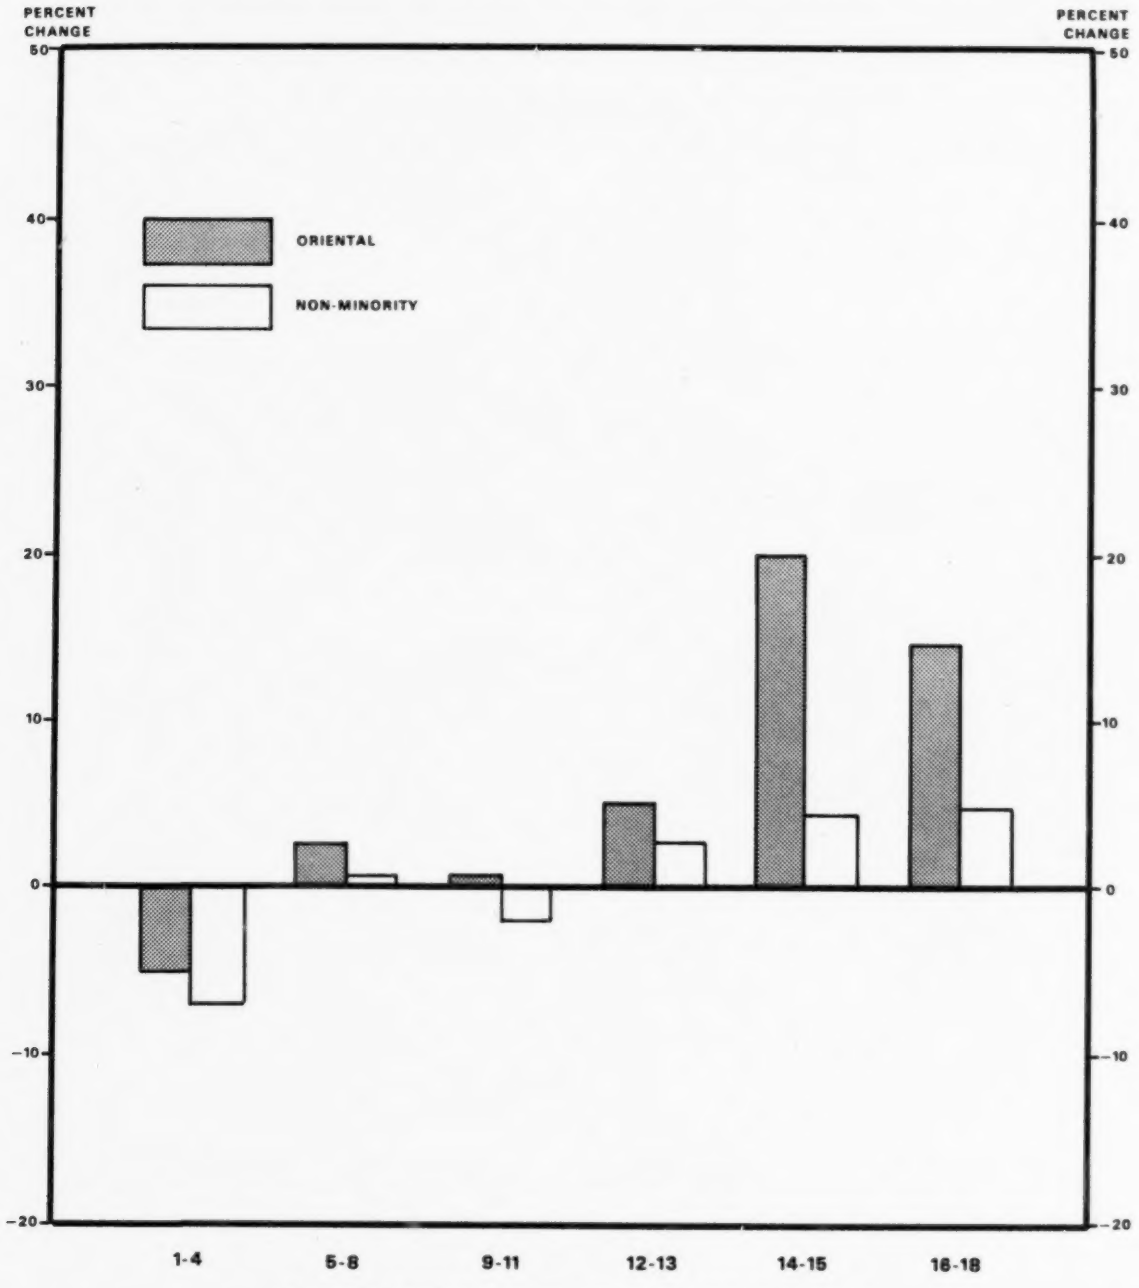

CHART 9 -- PROGRESS OF ORIENTAL EMPLOYEES AS MEASURED BY THEIR GROWTH RATE, NOVEMBER 1967-1970, BY PAY PLAN SYSTEM.

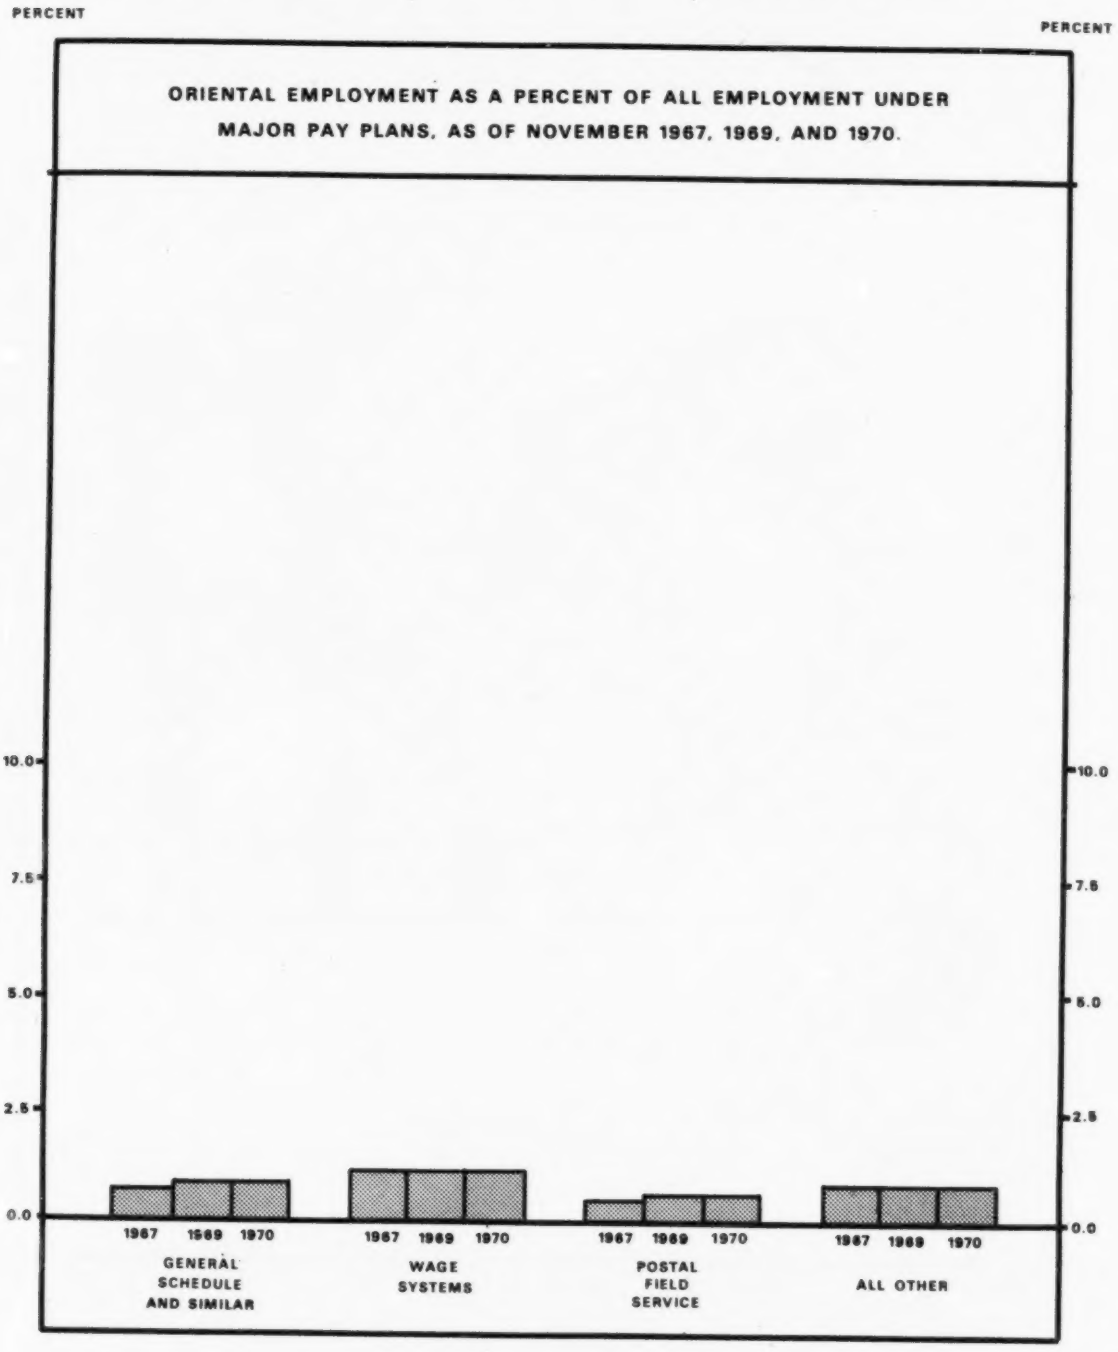

Oriental American Federal Employees - Continued

employees under "all other" pay plans have increased by 3.6 percent-- a reversal of their net loss during 1967-1970 under these pay plans.

Progress of Oriental American employees, as measured by their percent of total employment under major pay plans for 1967, 1969, and 1970, is shown in chart 9, page 20.

United States

Full-time Federal employment in the United States totaled 2,523,843 on November 30, 1970. This total included 499,602, or 19.8 percent, minority group employees. In November 1969, minority group employees were 19.4 percent, or 494,745, of the 2,549,896 Federal employees in the United States.

Since November 1969, employment in the United States has decreased by 26,053. Heaviest losses were in California (6,975), the District of Columbia (4,825), Pennsylvania (3,008), Texas (2,752), Georgia (2,736), Oklahoma (2,636), Washington (2,274), Massachusetts (2,020), New Jersey (1,774), Utah (1,404), and New Mexico (1,076). Agencies of the Department of Defense accounted for most of the decrease in each of these areas.

Representation of minorities in Federal jobs as of November 1970 ranged from 0.7 percent in Maine to 43.2 percent in New Mexico. The percentage of jobs held by minorities was below 5.0 percent in 9 states; 5.0 to 9.9 percent in 11 states; 10.0 to 14.9 percent in 10 states; 15.0 to 19.9 percent in 8 states; 20.0 to 24.9 percent in 6 states; and 25.0 percent and above in 5 states and the District of Columbia.

In 38 states, the percentage of jobs held by minorities was below their nationwide representation of 19.8 percent in Federal jobs. In 1969, the percentage of jobs held by minorities in these 38 states was also below the nationwide percent for jobs held by minorities.

From 1969-1970, minority group employees in white-collar occupations show a 3.6 percent increase--from 340,500 to 352,900. This raised the proportion of minority employment in white-collar jobs to 69.9 percent, from 68.8 percent in 1969. The proportion of non-minority employees in white-collar jobs was 80.6 percent in 1969, and 81.9 percent in 1970.

The data show a continued downward trend for both total, and minority employment in blue-collar occupations. From November 1969 to November 1970, blue-collar jobs decreased by 39,741, including 7,513 minority employees. Minorities hold 28.5 percent of the blue-collar jobs, but accounted for 18.9 percent of the reduction in these jobs.

Standard Metropolitan Statistical Areas (SMSA's)

The presentation which follows is based on the 75 selected Standard Metropolitan Statistical Areas surveyed in the 1969 and 1970 minority censuses. Employment totals for these areas are shown in tables in Appendix IV.

Standard Metropolitan Statistical Areas (SMSA's) - Continued

Since 1969, full-time Federal civilian employment in the United States has decreased by 26,053, while employment in the 75 SMSA's has decreased by 40,642. Despite sizable overall losses, minority employment in the United States increased 4,857. There was, however, a slight decrease (992) in minority employment in the 75 SMSA's.

In November 1970, Federal employment in the 75 SMSA's totaled 1,626,256, or 64.4 percent of the full-time Federal work force in the United States. In November 1969, 65.4 percent of Federal employment in the United States was located in these areas. Minority group employees hold 410,651, or 25.3 percent of the Federal jobs in the 75 SMSA's, compared to 24.7 percent in 1969. The percentage of minority group employment in the United States that is located in the 75 metropolitan areas has decreased from 83.2 in 1969, to 82.2 in 1970.

In the SMSA's surveyed, minority group employees paid General Schedule and similar rates totaled 153,289. The proportion at GS-9 and above ranged from 4.9 to 45.2 percent. For the 75 SMSA's as a whole, 30,876, or 20.1 percent of minority group employees paid General Schedule and similar rates were at and above grade 9. In 1969, 19.4 percent (28,960) of the 149,487 minority employees in these metropolitan areas under the General Schedule and similar pay plans were at and above grade 9.

Distribution Within Pay Plan

During 1969-1970, there was a net decrease of 5,115 among all Federal employees paid General Schedule and similar rates. Decreases occurred in grade groupings 1-4 (17,051), and 9-11 (4,600). Minority group employees paid General Schedule and similar rates increased 7,177, and showed a relatively small decrease in grades 1-4 (931).

As shown in the tables on the following pages, minority employees at General Schedule and similar grades GS-5 and above increased by 8,108 (8.3 percent), from 1969 to 1970. Total employment at these grades increased 11,936 (1.2 percent). In grades 5 through 8, minorities increased by 5,497 (9.0 percent), compared to an overall increase of 6,525 (1.8 percent) at these grades.

In General Schedule and similar grades 9 and above, minorities increased by 2,611, accounting for 48.3 percent of the Government-wide increase at these grades. This increase was distributed by grade grouping as follows: 9-11 (831); 12-13 (1,266); 14-15 (481); and 16-18 (33). Minority employees accounted for 19.9 percent of the increase at grades 12-13; 14.3 percent at grades 14-15; and 12.4 percent at grades 16-18.

In November 1969, the proportion of minority group blue-collar workers earning less than $8,000 per year was 80 percent. The corresponding proportion for non-minorities was 53 percent. In November 1970, the comparable proportions were 64 percent for minorities, and 32 percent for non-minorities. For both minority and non-minority employees, the net decrease in blue-collar employees centered in the range up to $7,000 annually.

a/ No change in employment at these grades.

Distribution Within Pay Plan - Continued

Minority group employees account for 25.1 percent of all blue-collar workers in the $7,000 to $9,999 pay range, up from 20 percent in 1969. Total employment in this pay range increased 4.7 percent since 1969, while minority employment increased 29.9 percent.

In the $10,000 and above pay category, there are some 7,500 minority group blue-collar workers. This represents 8.9 percent of all such Federal workers, as compared to 4,483, or 8.1 percent in 1969.

Minority group employees were 31.9 percent of the 13,675 increase from 1969 in the Postal Field Service. In PFS grades 1-5, minority group employees increased 1,890--accounting for 22.7 percent of the total increase at PFS grades 1-5. The corresponding figures in other PFS grade groupings were as follows: PFS 6-9, (2,185 or 51.0 percent of total); PFS 13-16 (78, or 25.7 percent of total); PFS 17-19 (5, or 4.9 percent of total). Total and minority employment at PFS grades 20-21 remained unchanged at 39 and 2, respectively.

Under all other pay plans, total employment increased 1.5 percent (761), and minority employment increased 11.0 percent (452). Sixty-three percent of the increase in minority employment under these pay plans was in the $10,000 and above pay range.

Distribution And Growth By Federal Agency

Minority group employment for all Federal departments and agencies totaled 505,035, or 19.6 percent of the 2,571,504 total Federal employment. The corresponding proportion in November 1969 was 19.2 percent. The percentage of the total Federal civilian work force in each department and major independent agency and the percentage of minority employees in these departments and agencies is shown in the table on page 26.

Since November 1967, minority group employment in the Federal government has increased 8,363, for an average of 1.7 percent yearly. The average annual growth rate was 0.03 percent for Negro employees; 2.7 percent for Spanish-surnamed employees; 3.1 percent for American Indians; and 1.6 percent for Oriental employees. Average annual growth rates are shown for each minority group in selected agencies in the table on page 27.
